CHALLENGES AND FUTURE GOALS

2023 Achievements

2023 was an extraordinary year for TFE, filled with remarkable achievements that enabled us to fund our students' education and cover our operating costs. Thanks to your unwavering support and generosity, we were able to transform dreams into reality, providing hope and opportunities for countless young minds.

As we move into 2024,

we face new challenges with funding our returning and the new students from different regions of the country.

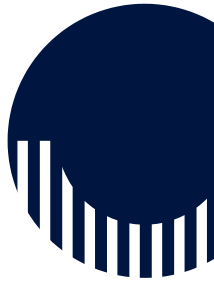

We have also started our pilot program, Project Computer, where we provide fund for a teacher's monthly salary of Rs 10,000 to school.

At TFE, we truly believe in empowering students not just sponsoring for their tuition and hoping for them to succeed. Therefore, when our President, Nabin Saud, went to our partnered government school, Shree Bhanodaya Basic School, upon discussing with the school principal and teachers we concluded that having a computer class will teach the young students a valuable and a necessary skill for them to compete in today's market.
